Pulikunta Anudeep Kumar Reddy

+91 7995551276 | anudeepreddy453@gmail.com

Summary

Software Engineer with experience in React development, Python automation, and AI model training. Proven ability to improve operational efficiency through automation and develop real-time monitoring dashboards to support data-driven decision-making. Skilled in collaborating with cross-functional teams and delivering scalable solutions.

Professional Experience

- **Societe Generale Global Solutions** Aug 2023 – Present
  Software Engineer *Bengaluru*
  - Developed and maintained responsive React web applications using TypeScript, Redux, and Material-UI, resulting in 40% improvement in user engagement metrics and 25% faster page load times.
  - Built real-time KPI monitoring dashboards using Python (Flask/Dash) and PostgreSQL, processing 10,000+ data points daily, enabling stakeholders to make data-driven decisions and reducing incident response time by 60%.
  - Automated 15+ manual production tasks using Python scripts and cron jobs, increasing operational efficiency by 35% and reducing human errors by 90%, saving 20+ hours of manual work weekly.
  - Optimized database queries and implemented caching strategies, improving application performance by 45% and reducing server response time from 800ms to 300ms.
- **Turing (Meta Projects)** Mar 2021 – Dec 2022
  AI Training Engineer (Part-time) *Remote*
  - Trained and fine-tuned 3+ large language models (GPT variants) using Python and PyTorch, achieving 85%+ accuracy on custom prompt-response datasets for Meta's content moderation and recommendation systems.
  - Developed and optimized custom prompts for AI model training, improving response quality by 30% and reducing training time by 25% through prompt engineering best practices.
  - Collaborated with Meta's AI research team to implement testing frameworks for model performance evaluation, contributing to 15% improvement in overall model effectiveness.
- **LTIMindtree** Jan 2023 – Jun 2023
  Full Stack Developer Intern *Remote*
  - Successfully cleared 3 rigorous coding assessment rounds in first attempt, demonstrating strong problem-solving skills and technical aptitude in competitive programming challenges.
  - Gained comprehensive knowledge of full-stack development technologies including React.js, Node.js, Python, HTML/CSS, and SQL through intensive training programs and hands-on learning sessions.
  - Completed IGNITE 2023 internship program with distinction, earning internship certificate through dedicated study and practical application of web development concepts.
  - Participated in collaborative learning sessions and technical workshops, building foundational understanding of modern web development frameworks and best practices.

Education

- **New Horizon College of Engineering** 2019 – 2023
  B.E. in Electronics and Communication Engineering *Bangalore*
  - Strong foundation in problem-solving and software development.
  - Represented university in state-level Kabaddi, demonstrating teamwork and discipline.

Technical Skills

- **Languages:** Python, TypeScript, HTML, CSS
- **Frameworks/Libraries:** React
- **AI/ML:** AI Training, Prompt Engineering

Certifications

- Internship Program - IGNITE 2023 (LTIMindtree)
- Certificate of Internship - Robotics (SPACE), Jan 2022
- Certificate of Appreciation - "A Survey on Spectrum Sensing Using Energy Detection for 4G Waveform" (IEEE Xplore)

Projects

- **CVAR Batch Monitoring Dashboard** - Built a real-time monitoring dashboard using Flask and Dash to track workflows, automate log parsing, integrate REST APIs, and improve performance with caching and multithreading.
- **HR Succession Planning System** - Developed a full-stack web app using React (frontend) and Flask (backend) with authentication, role-based access, analytics dashboards, and automated deployment.
- **Automated Excel Data Extraction Tool** - Created a Python script for one-click Excel extraction, reducing reporting time by 70%.
- **Portfolio Website + AI-Powered Resume Builder** - Developed an interactive portfolio platform with AI resume optimization, ATS scoring, multi-template LaTeX export, and optimized performance. Built with Next.js, Node.js, Tailwind CSS.

Languages

Telugu: Native — English: Advanced (C1)

Hobbies

- **Strategic Thinking:** Playing chess to enhance problem-solving and analytical skills.
- **Exploration:** Enjoy long-distance bike rides, fostering adaptability and a spirit of adventure.
- **Continuous Learning:** Strong interest in exploring new technologies, ideas, and innovations.
